## SENATORS WIN A BAD GAME.

WRETCHED PLAYING BY THE BLUES RESPONSIBLE FOR DEFEAT.

Roach Pitches Good Ball and a Victory Should Have Been Marked Up to His Credit-Pickett Ejects a Spectator.

A corpse-like pallor of indifference frus trated the Blues in their blundering at-tempt yesterday to wrest the second game of the present series from the aged gents from Ohio, Baseball of the paresis-stricker

served up to the handful of fans who journeyed out to Exposition bark yester day afternoon. Co-lumbus won—5 to 3. The score looks bet-ter in print than it did on the diamond did on the diamond when the runs were sent across the home plate. The only gleam through the gloom was a high foul which Rettger sent

was a high foul which Rettger sent up not far from the left bleacher and which Blanford captured after a hard run. Unsteady on his pins he whipped the ball to Nicholson at second, retiring Buckley, who had tried to advance a link on the out. Up to and beyond this point the game was about as interesting as the voiceless conversation of a deaf and dumb man when you don't understand his signs. The fans were inclined to be sarcastic and along towards the fag end of the agony Captain Pickett invaded the right bleacher where a fan wearing a brown hat and a sharp tongue had been holding forth and ejected his tormenter from the grounds, Manager Manning met the fan outside the fence, shook him by the hand, took him down to the club house, asked "What'lly'ave," and piloted him to a seat where he could look on, see and be seen.

piloted him to a seat where he could look on, see and be seen.

The Blues played as though they didn't want to win the game. Several times dur-ing the woe a buse hit would have tied matters up, but Gettinger struck out, ditto Blanford and other players popped up lit-tle flies that took away all hope of vic-tory. The Blues hit the ball hard enough when men were not on bases, but that was all.

when men were not on bases, but that was all.

Columbus began to score in the first inning because Roach was as wild as the Chicago wheat market and out of two bases on balls, three stolen bases, a muffed fly by Menefee, a hit and a profamity-starting throw by Blanford three runs were netted. A base on balls, backed up by two singles, added another run in the third inning, while a single, a fielder's choice and an error let in another run in the fifth, after which

up to bat. The Blues sccred two runs in the sixth on two doubles and a sacrifice, with an outfield out. They took another in the seventh on a single and a triple. Pickett and Menefee led off hits in the eighth and Gettinger bunted. Pickett being retired at third on the play. Blanford flew out to Mertes in left field and Menefee tried to beat the ball to third—a new piece of daring baserunning that it is to be hoped will never be attempted again. He was thrown out almost before he had taken two steps from second. The score: The score:

Baseball Notes.

Ginger up!

Let's have some life. The Blues will start to-night for the North to be gone for two weeks. A victory to-day would place the Blues in good trim to go on the road. President Franklin, of Buffaio, has issued an order that there shall be no more sacrifice hitting in his team.

sucrifice hitting in his team.

Several threats have been made to keep Fred Pfeffer off the league's umpire staff because of his connection with an alleged revolt several years ago.

Walter Thornton, one the the Chicago twirlers, established a new record on Saturday by striking out ten men in a seveninning game at Washington.

There are something like 70,090,090 people in this glorious land of ours, but your Uncle Nick Young has trouble to find half a dozen who can umpire league ball.

Captain Anson has made several wagers

Captain Anson has made several wagers that his Chicago team will finish in the first division, and it looks as if he would get there, as the Colts are good stayers. According to one of the St. Louis players, the Philadelphia club made an offer of \$3,000 and Lave Cross, Flield, Johnson and Wheeler for Hart, Donahus and Monte Cross.

Monte Cross.

When Dowd was secured from St. Louis, the Philadelphia fams worshiped him like a hero. Now he is a broken down idol, and an effort is being made to trade him back to Von der Ahe.

While the Chicago club was in Washington, Pitcher Mercer and Anson held several secret confabs together. It is hinted that Mercer will be a member of the runaway Colts by next season.

The Quaker City fans have suddenly taken a dislike to Catcher Clements, and they now jeer at him every time he gets into the game. And this after fourteen years of good and faithful service for the Phillies. Pittsburg has made an offer of \$1,500 to the Toledo club for Second Baseman Erve Beck and First Baseman Myers. Both are considered to be the best players in their relative positions in the Interstate League. Although the Giants are winning more Although the Giants are winning more than their share of games, the New York papers are still complaining and give Joyce this wholesome advice: "Less kicking and more ball playing will suit the cranks better."

McCreary, the right fielder, who was sold to New York by Louisville, is making a hit in Gotham. Last year he made a big reputation as an outfielder and a number of clubs were after him. He had a quarrel with Louisville about salary in the spring and his work has not been nearly so good in Louisville this year as last. Now he is playing in great form. Greenfield, Ind., Aug. 24.—At the fair grounds yesterday, Lady Anderson, a guidless pacing wonder, paced a mile on the half mile track in 2:08 fat. Racing experts rate a half-mile track as five or six seconds slower than a mile track. The mare is in training for the Greenfield fair, and has never yet gone into public. The mare made the mile yesterday without a break and without encouragement. An effort is to be made to match Lady Anderson with Marrion Mills for a race between the two guideless wonders at the Indiana state fair, which takes place in Indianapolis the week of September 13.

## SHEEPSHEAD BAY FUTURITY

RICH PRIZE IS WON BY L'ALOUETTE BY A LENGTH.

Lydian Is Second and Uriel Third-Previous Left at the Post-Rain Pinces the Track in Very

Rad Condition.

New York, Aug. 24.-The unexpected hap peried at Sheepshead bay to-day and the filly L'Alouette, of the Thompson string, won the Futurity with something to spare. Her backers were happy, for al-though her victory was a surprise, she was coupled in the betting with her stable-mates Gibraltar and The Huguenot, and as the stable was the favorite for the race the ring suffered. The other unexpected thing was the running of Lydian, who got the place.

The track was in anything but satisfac tory condition, the heavy rains of last night and this morning having turned it into soft mud, which had dried out sufficiently to make the going heavy and sticky when the race was run. When the first race was called the gathering was first race was called the gathering was small and not more than 12,000 were present at a quarter to 5 when the bugle called the eighteen starters for the richest stake of the year to the post. It was not long before they were on their way up past the grand stand, the Thompson trio showing the way, the Daly pair coming next, the Keene pair next and the others in their order on the card. Then there was a short talk to the jockeys by the starter and they were lined up for the journey. Backing and filling the line they swept away. An instant the red flag was poised and then it swished through the air and the youngsters were on their short journey. It was a fine start for all but Previous, who was left standing still in the first break, to the great surprise of his owner and most of the older race-goers. Grand Sachem and Amazonian were quickest on their feet with Uriel and Cock Robin close up. L'Alouette was next and the others not who was left standing still in the litst break, to the great surprise of his owner and most of the older race-goers. Grand Sachem and Amazonian were quickest on their feet with Uriel and Cock Robin close up. L'Alouette was next and the others not far away. Nearly every one of the youngsters was in his stride and there was little shifting of positions as the lot swept down the chute toward the main track. So close together were they at the first furlong that a dozen were not more than heads apart. At the quarter pole the line of advancing racers was almost like that of a cavalry charge. They rushed past the post with Cock Robin, L'Alouette, Gibraltar, Gala Day, Howland, Uriel, Plaudit and Lydian heads apart and short ones at that, in the front rank, while the others were almost lapped upon them in the second column. It was anybody's race then with the exception of the well-backed Previous, who was still at the post with Sims looking alternately at the starter and then at the flying field in front of him in blank dismay. Now they were at the three furlong pole and were beginning to make for the best place for the run into the stretch. Cock Robin was then a neck in front of L'Alouette, she a length in front of Gibraltar, he a length in front of Giala Day, with Willy McCafferty on his back. Uriel was next and then came Lydian, Plaudit and the others. Around the turn they rushed and were but a quarter from home, and still Cock Robin was then but "Skeet" Martin was urging him and he was beginning to falter. Right at his thront was L'Alouette, hanging on much better than her owner had any idea she could, and right at her tail was Gibraltar's head, and Gala Day was pegging along at his heels, but the boys were driving the colts, while Clawson was sliting still waiting for the final rush which was bound to come. Sloane dug his heels into Uriel's side and he went past the others like a flash and poked his nose into first place, while his stable companion, Cock Robin, with his others, when Clewbus had go him and was drawi

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys The second way is from careless local treatment of other diseases.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be easily avoided. To find out correctly, set your urine aside for twenty-four hours; a sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney and bladder remedy, is soon realized. If you need a medicine you should have the best. At druggists, fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail. Mention The Kansas City Dally Journal and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer. Detroit Winners.

Detroit, Mich., Aug. 24.—Sacket, the 2-year-old colt belonging to Sims & Anderson, came over here from Chicago last night to win the Normandie hotel stake, and he delivered the goods, thanks to the excellency of Tommy Burns' riding. Burns got off slow with Sacket and it looked blue for the Chicago delegation until half way through the stretch, when the race became a duel between Pingree and Sacket. Sherland on Pingree was outridden by Burns and Sacket won by a nose. Pingree was then disqualified for cutting in front of Our Chance a furlong down the track. This placed Lieber Karl second and Our Chance third. The fifth race was declared off, leaving four on the programme. Sacket was the only favorite to win. Summaries: Detroit Winners.

MY, BUT THEY SUFFERED!

An Examinaution at the Armory Last Night Which Would Have Caused a Crocodile to Weep. Examinations in spelling, reading, writ-

ing, arithmetic, grammar, United States history and geography were conducted at the Third regiment armory last night. Three candidates were before the board for examination. Each had taken a college examination. Each had taken a college course, but that was many years ago, and, scated at desks in the regimental head-quarters, the three candidates wore as puzzled expressions over the questions as ever were seen on the face of a school boy. They, of course, could answer questions of which school boys would be in total ignorance, but each of them last night frequently wished that a school boy had been there to coach him. When it came to the principal parts of certain verbs they were stalled, and one thought the Danube river might be in Australia, while another cursed the college he had attended for not teaching United States history in place of Greek. But then the examination was not a technical one, and all three candidates passed with credit to their school days.

Dr. Jabez N. Jackson, who is a captain in the hospital corps, was a candidate for promotion to the rank of major in the medical department of the regiment, and Hospital Steward Wilson was a candidate for the position of captain. Dr. Griffith, the lleutenant colonel of the medical department, examined them in surgery and medicine, which, of course, was easy for them. Major Kelsey, Captain Wagar, Captain Kinneard and Lieutenant Miller compose the examining board in military tactics and the company. Sergeant Pope, of Veteran Company A. was a candidate for promotion to the rank of first lieutenant of the company. Sergeant Pope had not seen the inside of the school textbooks since before the war, but he helped make United States history, and could give his companions cards and spades when it came to questions on the results of battles in the civil war. course, but that was many years ago, and,

The examinations last night were held under the provisions of the new militia law, which is strict regarding the qualifications of officers. The examination papers, with the grades, will be forwarded to the adjutant general of the state, and if he is satisfied with the papers, commissions will be forwarded to the candidates for promotion.

NO MORE SMALL LOAVES.

Bakers Will Raise the Price of Bread, but Retailers Will Make No Change at Present.

The big advance in the price of wheat during the past two weeks has caused an increase of 52 per cent in the price of flour. and the bakers of Kansas City have arrived at the conclusion that they must do something to save the profits they were making upon bread before these advances occurred. President George O. Warneke, of the Boss Bakers' Association, has called a meeting of that body for this evening at in the price of flour last night Mr. Warneke, who is president of the George O. Warneke Bakery Company, said:

"The bakers of the city are agreed that they cannot afford to sell bread at present prices, and they will take action at the meeting that will result in doing away with the small loaves and will raise the wholesale price on the large or 5 cent loaves half a cent. This raise will not fully cover what they are losing by the raise of 52 per cent in flour, but it is the best they can do at present. Bakers are making two-for-5-cent loaves that weigh from ten to eleven ounces each. It is the intention to stop baking these loaves and to bake only the big loaves that weigh from from twenty to twenty-two ounces each. While they give the same weight in two of the small loaves as in one of the big loaves, there is more labor in making the small loaves. They cannot decrease the weight of the big loaves without get-1434 Grand avenue. Discussing the raise the small loaves. NO WONDER HE'S SAD. A Medford, O. T., Man Who Contracted

All His Wheat at 49 Cents a Bushel. John C. Bingner, one of the business men of Medford, O. T., is a guest at the Midland. In addition to owning several flour-ishing business houses, he owns and manlond. In addition to owning several flourishing business houses, he owns and manages a large grain farm near Medford. Although he raised a big crop of wheat this year he is paying no attention just now to the price of grain, and professes not to care what becomes of the market. The reason is that last summer when the outlook was not so good for high prices as at present he contracted all of the wheat he might raise to a dealer down there for 49 cents per bushel. He raised, so he said last evening, just 5,662 bushels, and all of it went at the price stated. Some of the other grain raisers down there sold for the same price, but others held on to their crop and sold out as high as 86 cents. That is why the present price of wheat makes Mr. Bingner sad. It means a great big increase of the profit that is being made on the wheat he raised, and others now hold. He will never again contract the crop he is growing, no matter what the outlook may be. He will hold on and take pot luck with the rest of his neighbors.

"Business is flourishing with us," he said last evening. "The people have plenty of money, and are making liberal purchases of all sorts of supplies. Many business house, and will ship them in a few days. The prices that are being realized from the sale of farm supplies are having full effect on business, and in all lines there is a marked activity, and the business men are sharing the prosperity of the farmers."

state has been requested to furnish the cadets with two pieces of artillery and Adjutant General Bell is expected to grant the request. The state last fall equipped the cadets with the rifles used by the Third regiment before the new Springfield rifles were received from the war department.

The experiment of teaching the manual of arms in the high school last year proved very satisfactory to the board of education. The pupils were enthusiastic over the chance to become proficient in military tactics and three companies of infantry were formed. Major S. E. Kelsey, of the Third regiment, was placed in command of the cadets. The reports from the high school principal as to the effects of the dally drills on the carriage and general deportment of the boys belonging to the companies were such as to cause the board to take more interest in the cadets this year than last, and steps will be taken to provide better equipment.

The Eastern Wool Market.

The Eastern Wool Market.

Boston, Aug. 28.—The wool market here shows an excellent dernand in progress, with the tone of values hardening and sales ruling large. The demand is principally from manufacturing and dealers finding no obstacles in disposing of their stocks. Territory wools continue to maintain a firm tone, and large lines are being sold on the scoured basis of 46@41c for fine medium and fine, while choice staple calls for 45c, and many dealers still ask above figures. The fleece wool trade is light, but prices holding firm. Many dealers, however, are holding their stocks for an advance. Australian wools continued in good demand, with prices hardening.

SELECTED FOR PLACE OF HONOR IN THE FLOWER PARADE.

She Will Have as Attendants Twenty Young Women From Nearby Towns-Parade Entries

Are Many.

The honor of being queen of the flower parade, the prettiest event of all the fes-tivities given in Kansas City, was yesterday bestowed on Miss Frances Cravens a beautiful young woman who is charming-ly fitted to grace the occasion. The choice was made at the meeting of the flower parade committee at the headquarters in the New York Life building. No other candidate was considered, Miss Cravens' selection meeting with the unanimous approval of all the members of the commit

flower parade committee. When Mrs. Cravens called the meeting to order yesterday morning and all was ready for business, one of the ladies politely asked her to yield the chair a few moments to the vice president, Mrs. George P. Gross. Mrs. Gross announced the first business was the selection of a queen for the parade. The name of Miss Frances Cravens was proposed and at once the choice was unanimous. Then Mrs. Gross gracefully surrendered the chair to Mrs. Cravens with the remark that the ladies had transacted a little piece of business of their own in the interval. The compliment to her daugher was one which was fittingly acknowledged by Mrs. Cravens.

The choice of Miss Cravens for queen will meet with the hearty indorsement of the society of the city, of which she has been a very popular member since her debut. She is a very handsome woman, not yet out of her teens. She has spent her life in the city except the past three years when she was in the East at school. Last year she was a student at the seminary at Oxford, O., but the past winter she was in the school of Miss Peebles on East Fifty-fourth street, New York city. When school closed there in June she visited a short time in Boston, then at Washington. She is now with friends in Chicago, but will be home in a couple of weeks. A telegram telling of her new honor was sent her yesterday afternoon.

Miss Cravens is neither a pronounced blond nor brunette. She is rather above medium height, with a well formed figure, very graceful in her movements and exceedingly bright and vivacious. She is a planist of ability and while she has been but little in society she has a very prominent place and is a welcome guest at all the exclusive functions of the city. She is a member of a proud old Kansas City family. Her father was Judge J. K. Cravens, a prominent member of the bar who died a few years ago. Her mother is one of the prominent and influential women of the city.

who died a few years ago. Her mother is one of the prominent and influential women of the city.

Miss Cravens is an only daughter. She has three brothers, James Cravens, a well known young attorney of the city; Lanier Cravens, a well known cigar man, and J. S. Cravens, who is with Liggett & Myers, of St. Louis. She is related to a number of the best families of this part of the state.

J. S. Cravens, who is with Liggett & Myers, of St. Louis. She is related to a number of the best families of this part of the state.

The picture from which the cut is made was taken last spring in New York and shows Miss Cravens as she appears to-day. The court of maids for the fair young queen will be made up of handsome young women from twenty neighboring towns. The directors of the Krewe will ask the following cities to select young women to represent the city in the court. Some may fail to do so, but it is assured that at least twenty will respond. The cities are: In Missouri—Independence, Liberty, Lexington. Richmond, Marshall, Carrollton, Sedalia, Boonville, Warrensburg, Jefferson City, Chillicothe, Holden, Springfield, Neosho, St. Joseph, Harrisonville, Cameron, Joplin and Carthage. In Kansas—Topeka, Atchison, Leavenworth, Olathe, Wichita, Independence, Fort Scott, Paola, Lawrence and Ottawa.

The young women chosen will be asked to come to Kansas City as the guests of the Krewe and remain for the week as guests. All the hotel bills and railroad fare will be borne by the Krewe. While they will escort the queen in the parade and during the festivities, they, in turn, will be escorted on the parade by three coaches filled with handsome Kansas City young women. One coach will wear red, one white and one blue. The array of handsome women from Kansas City and the surrounding country will, it is believed, be one of the prettiest features of the parade, and will add immensely to the interest felt in it.

Entries for the flower parade are coming in rapidly and many have already placed their orders for flowers. There is a stunning array of artificial flowers on exhibition at the headquarters, 218 New York Life building, where they are shown, prices quoted and orders taken. All of the flower parade having made a demand that has built up a flourishing business in that line. The perfection of the flowers is something that excites the admiration of all who have seen them, and offers a wide field for the taste and in

MOUNTAIN OF COAL ON FIRE.

Constant Stream of Water Played on It for Nearly Thirty Hours.

Although a constant stream of water had been kept playing on a smoidering fire in a small mountain of coal piled up in the cattle pens at the Armour packing plant all day Monday and Monday night, the fire was not extinguished until yesterday. In anticipation of a possible miners' strike the Armour company had received a large supply of coal, about 29 cars of which were unloaded in the cattle pens. Smoke was seen issuing from the great heap Monday morning, and it developed the coal was burning at the bottom of the pile. A force of men was put to work and removed several thousand tons of coal before the water could be played directly against the fire. It continued to smolder long afterward, making it necessary to remove many tons of cinders. Several carloads of coal were destroyed. Although a constant stream of water had

METHOD TO CURE AND INCREASE THE POWER.

It is a remarkable fact that a man never appreciates the sufferings of others until he himself has passed through the fire of pain or remorse. Then it is that he looks around for those who are suffering; he around for those who are suffering; wants them to profit by his experience gives his time and money gladly for the

benefit of others and never tires of his zeal. There are plenty of men weak and worn out, struggling with remorse and fear, the natural outcome of habits that brought incapacity; a sense of lonesomeness and a feeling as if the best side of life had been banished forever. Such men should write to Thomas Slater, box 554, Kalamazoo, Mich. He will send tree by mail, in a plain, sealed envelope full particulars about the method he used, and this will enable any man to get a complete cure at home. It is the method that Mr. Slater used to cure himself of the troubles that sap the strength and vigor and also enlarged his organs to natural size. The cure was so complete, so satisfying and such a wonderful change from his former condition that he will gladity tell others all about it, sending all particulars. He figures that he doesn't know of a better way to show his appreciation of his own cure and the sufferings of others. There must be generous men in this world to offset the tide of avarice. MOTHER OF A WOUNDED GIRL DREAMS OF MURDERER'S ARREST. Within a Dozen Hours Came a Tele-

Tom Clark in Custody

in Chicago. Murderer Tom Clark, who shot and killed Lizzie Hatch, near Eighth and Highland, June 4 last, and wounded two other women, is behind the bars in Chicago, and will be brought back to Kansas City to stand trial for his life. He was arrested yesterday, and Ed Hickman, private secretary to the chief of police, will escort him to this city. Mrs. Alice Bruner, mother of Lizzie Williamson, one of the two women who were wounded by Clark, swore to a complaint before Prosecutor Lowe yesterday, charging Clark with murder. Mrs. Bruner de-clared that she dreamed on Monday night that Clark was arrested. In a state of great excitement, she hastened to the drug store, at Ninth and Brooklyn, bright and

great excitement, she hastened to the drug store, at Ninth and Brooklyn, bright and early yesterday morning, and eagerly besought Proprietor Lee to scan the morning papers, and see if her dream had not come true. Mr. Lee laughed at the idea, especially as there was nothing in the papers about the arrest, for the very sufficient reason that it had not yet been made. Within a few hours, however, word came to the county marshal that Clark was under arrest, and Mrs. Bruner was sent for.

She arrived at the jail in a state of great excitement. The news was too good to be true, and the remarkable vindication of her dream was an additional reason for elation. She signed the information in a neat hand, and Assistant Prosecutor Mastriu issued the warrant with great pleasure. The crime for which Clark is wanted was a peculiarly cold-blooded murder of a woman through jealousy, and the wanton wounding of two others.

At first Clark refused to return to Kansas City without requisition papers, but while Assistant Mastin was making out the application for a requisition, word was received from Chicago that Clark was anxious to return and stand trial. He declared the spirit of the woman he had killed had haunted him ever since the murder, and that he was about to return and give himself up when arrested.

STILL AFTER FACTS. Insurance Commissioner and Attorney

General Propose to Visit This "The work we have done investigating the insurance situation of Kansas City has convinced us that the case merits our closest attention for a time," said Insurance Commissioner Ed Orear has evening. He and Attorney General Crowe had been to St. Joseph and were on their way back home. They spent a few hours in the city and will return here during the coming fortnight or send a representative who will continue the investigation further. They are trying hard to get hold of facts that will enable them to go into court and prove the truth of the charges that are generally made about the streets of the combine and the high rates that are forced on the people in defiance of law.

"Our work is trying to get the facts." said Attorney General Crowe. "What we will do in the future depends entirely on what facts we can get in our possession. If we get the facts of the constant violation of law we will put the case where the courts will pass upon it speedily. If no facts are found, then there is nothing to take into the court. Just now we are hunting for facts." Section Again.
